

## Please, Woodcutter

Earth Day song written by Mr. Saphra

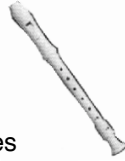

Please, Woodcutter  
South of the border  
Please don't cut that tree  
A little bird is singing  
Outside my window  
She's not singing just for me

Factory worker  
North of the border  
Won't you also care?  
That little bird who  
Sings oh so sweetly  
Struggles through your smoky air

She flies in spring  
North where it's cooler  
She builds there her nest  
In it lay her eggs  
They soon will be her babies  
She sings to them while they rest

She flies, winter  
South, where it's warmer  
She lives in that tree  
Please don't cut her woods-o  
Please don't cut her home  
You love her just like me

Please, Woodcutter  
Birds have no borders  
Please don't cut that tree  
A little bird is singing  
Outside my window  
She's not singing just for me
